

PT2 OB3

OB3

PT2's OB3 is a production facing vehicle designed as a stand alone monitoring vehicle or coupled up with OB2 as a full production gallery. Housed in a VW Crafter, OB3 can seat between 4-5 production members and has full production monitoring. Using state of the art fiber connectivity, OB3 can be connected directly to cameras or to OB2 quickly and easily. OB3 uniquely has a full battery back-up system on board, which makes it ideal as a data management and transfer unit giving continuous power even in the event of a power outage.

OB3 Layout

Technology Highlights

Chassis

3.5T VW Crafter with stabilising legs
Max footprint 8m (l) x 2.5m (w) x 3.4m (h)
Power - 2 x 16A1PH C-Form
Filming platform on roof
Antenna Mast
AC throughout

Production

1 x 43in Monitor
5 x 17in OLED Monitors
2 x Genelec Speakers
4-5 production positions
Space for a vision mixer panel
